## SURE TO CATCH HIM

**EITHER GOING OR COMING.**  
The Ordinary Life Contract of the Mutual Benefit Life Insurance Company is, without exception, the most attractive issued by any Company in the world, when taken on what is known as the Accelerative Endowment Plan. The plan was figured out by Broomfield J. Miller, Actuary of the Mutual Benefit, in 1874. It appears to any man who appreciates his obligation to protect those dependent on him while they are not in position to protect themselves, and at the same time realizes that after the time comes that depends no longer need protection. He may need Protection Himself. It is a contract under which the holder is absolutely sure to win, whether he lives or not, provided, of course, he continues to annually arrange the comparatively small premium called for by the contract. In other words he will certainly "catch the coin either going or coming." It is not practical to give a detailed and satisfactory exposition of the plan within the space at my disposal, but if you are sufficiently interested in the protection of both yourself and your dependents, ask for details. I shall be pleased to "show you" The Mutual Benefit attaches at present, a new clause to all policies issued on the lives of applicants between 14 and 45 years of age, and in case the policyholder enters the service of the U. S. an extra premium of \$37.50 on each \$1,000 in service, whether the holder is in the U. S. or France. If you are between 15 and 70 there will be no war clause.

SAM M. GRIST, Special Agent.
